

Business continuity plan

Overview

The purpose of the business continuity plan is to help Trefoil Guild develop resilience so we can continue to deliver essential services during and after unplanned disruptions such as a financial crisis, data breach, cyber-attack or a natural disaster.

Impacts of disruptions include loss of income, increased expenditure, and reputational damage, which can get worse, the longer it takes to recover from the disruption.

The plan outlines how we will continue to function at an acceptable level during and after a disruptive event, minimising downtime and protecting our critical functions.

The objectives of the plan are to protect employees and our members and to maintain critical services, minimise downtime and ensure a quick recovery.

For management of significant incidents, please refer to the protocols in the event of a significant incident or adverse event document which can be found on the Trefoil Guild website.

2. Key contacts

The plan provides guidance to staff on immediate action to take but in the event of an issue arising the **Trefoil support group**, which is a subgroup of the board of trustees, would implement and progress the business continuity plan.

The support group comprises of the national chair, the treasurer, the chair of the finance and general purposes committee and the office manager.

Other key contacts are provided in the table below:

Name	Contact details	Core areas
------	-----------------	------------

Registered charity number 1075232

Trefoil Guild	Telephone the office on 020 7834 6242 ext. 3010 during office hours, Monday to Friday.	Trustee and member communications.
	Out of hours contact the national chair – all trustees have contact details.	Significant incident or event.
Girlguiding	Contact the Trefoil office or national chair in the first instance but if unavailable and urgent call Girlguiding switchboard on 020 7834 6242 and ask for the relevant department. Media related during office hours call 020 7592 1891 or out of hours call 0207 592 1733	IT services excluding the website and KEY. Human resources Public relations Major incident,
CoCreate Web and Software Development Agency	0151 632 3527	Website including the KEY membership system.

3. Risk management

Trefoil Guild has a comprehensive risk management log. Each risk is assessed as to the likelihood of it happening and the severity of the impact if it happens. It is reviewed by the finance and general purposes committee and the board of trustees at every meeting.

2.1 Potential threats

There are a range of threats which could impact on Trefoil including

- natural disaster floods, earthquakes, landslides
- extreme weather high winds, heavy prolonged rain
- adverse global events
- outbreak of fire

- power outages
- cybersecurity attack
- loss of key people
- supply chain disruption

- loss of access to office
- loss of water or sewerage
- terrorist incidents
- pandemic

The key areas which might be affected include:

- our staff and our members
- financial loss
- reputational damage
- legal or regulatory implications
- member support and communication
- office processes

- health and safety incidents
- banking failure or fraud
- investment failure

4. Business recovery strategies and procedures

		Voyage books,		and social media.
		certificates and		Distribution of merchandise will not
		badges		take place until office access is
				restored.

5. Communication plan

Communications will be led by the national chair, the office manager and Trefoil support group and will depend on the issue. The method and frequency of communication will be relevant to the specific incident and may be by email, telephone, website, SMS, What's app and/or social media.

6. Continuous improvement

The business continuity plan will be reviewed and updated on an annual basis to reflect changes in technology, personnel, business processes or external conditions. Updates for employees and trustees will be provided annually.

Exercises to review the business continuity plan may be planned such as table-top scenarios for trustees. If anything is learned after a test exercise or a real incident, then the plan should be updated immediately.
